

LUNA Jacket with segmental reflective strip

Introducing the LUNA Jacket, designed to provide both style and safety in challenging work environments. Crafted with attention to detail, this jacket features segmental reflective strips that enhance visibility in low-light conditions, ensuring you remain visible and safe on the job. Made from high-quality 100% polyester fabric and available in a sleek Black and Hi-Vis Yellow color combination, the LUNA Jacket combines durability, functionality, and style for the modern professional.

- **Fabric:** Constructed from 100% polyester fabric, this jacket offers exceptional durability, withstanding the rigors of daily wear and tear in demanding work environments.
- **Visibility:** Equipped with segmental reflective strips, this jacket maximizes visibility, making you easily noticeable in dimly lit work areas or during night shifts, improving safety.
- **Color:** The combination of Black and Hi-Vis Yellow not only ensures visibility but also adds a touch of style to your workwear ensemble, allowing you to look professional while staying safe.
- **Standard:** Meets the EN ISO 13688 standard, guaranteeing high-quality craftsmanship and adherence to safety regulations, providing peace of mind for both employers and workers.
- **Weight:** 280g/m², the jacket strikes the perfect balance between warmth and breathability, ensuring comfort throughout your workday.

Elevate your safety and style with the LUNA Jacket, a versatile and reliable choice for professionals who prioritize both visibility and comfort in their workwear.
