

Winter Gloves, waterproof, snowproof, and windproof insulated work and leisure gloves

Waterproof, snowproof, and windproof insulated work and leisure gloves 831 HI-VIZ.

Features: Warm, comfortable gloves for work and active leisure.

Fabrics: These synthetic leather winter gloves are comfortable and fit well. The palm, index finger, and thumb are covered with high-quality polyurethane (PU) fabric, which increases the durability of the gloves. The non-slip pattern on the palm ensures better grip. The Hipora lining gives the gloves moisture resistance, allows the hands to breathe, and prevents sweating. The gloves feature a reinforced palm to protect against mechanical impacts. The elastic fabric on the back and thumb enhances comfort during wear. Reflective elements around the wrist and on the fingers increase user visibility.

Cuff: These gloves feature a wide and sturdy cuff for easier use.

Finger protection: The fingertips are reinforced with durable PU material.

Suitable for: Work and active outdoor activities in cold weather. Suitable for various mechanical tasks in cold and damp conditions.

Standard: EN388 (2221X), EN511 (12X), CE mark.
